

MAINSTAGE -THEATRE COMPANY-

September 9th, 2021

Mainstage Theatre Company is committed to providing an inclusive and a safe environment for participating youth and for its employees.

In accordance with public health recommendations, The Mainstage Board of Directors has voted to adopt a “pro” Covid-19 vaccination policy for all participants in our in-person programming.

This means, effective immediately, we will be asking all people **who are eligible** for a Covid-19 vaccine to provide proof-of-vaccination, or a medical exemption, in order to participate in our in-person programming. This applies to staff, volunteers and youth. This is not a requirement of digital-only programming.

We recognize that not all youth who are in the cohort able to participate in our programming are eligible for vaccinations. We will **not** be excluding those not yet eligible for vaccinations. As we have done throughout the pandemic, we will carefully be following protocols (masking, distancing etc.) to make sure we provide the safest environment for all.

For those who have questions or concerns, please contact admin@mainstagetheatre.com.

Sincerely,

The Mainstage Board of Directors
